## UVOD

### Korišćeni programski jezici

Za izradu ovog sajta korišćene su sledeće tehnologije: HTML, CSS, XML, JavaScript, Bootstrap, JQuery.

### Opis funkcionalnosti

Index.html

- Loader pri učitavanju stranice
- Modal sa formom i validacijom iste
- Dugme za povratak na vrh stranice - **JQUERY**
- Promena pozadinske boje headera pri skrolovanju
- Dinamički ispis (od sad D.I.) linkova i dugmadi u Navu
- Dugme toggler koji menja izgled sajta u svetao/taman

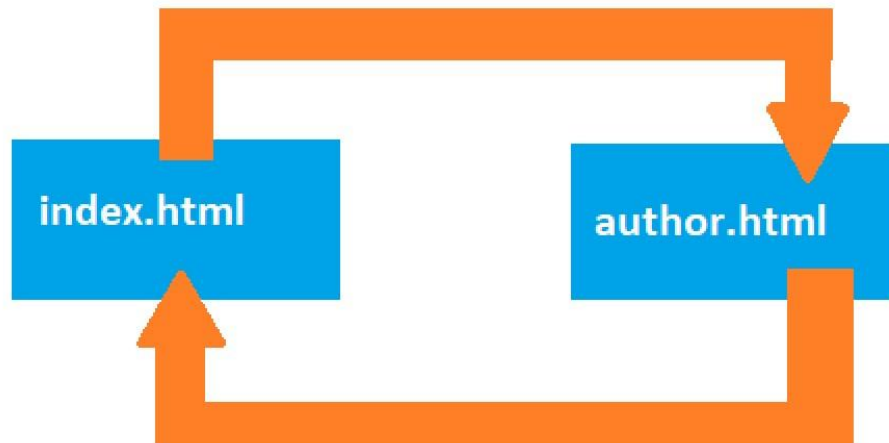

- Hamburger u manjim rezolucijama klikom otvara/zatvara meni - **JQUERY**
- Elementi se prikazuju prilikom skrolovanja sa animacijom. Svi naslovi u sekcijama u index.html izuzev Background sekcije imaju tu animaciju, kao i elementi koje ću kasnije navesti.
- Slider u sekciji Background sa 3 slajda
- D.I. slajdova, strelica i dugmadi u pomenutom Slideru
- D.I. teksta, slika, pitanja i odgovora i counter blokova u About sekciji
- Accordioni sa pitanjima i odgovorima - **JQUERY**
- D.I. blokova u Servisi sekciji
- Tekst u blokovima u pomenutoj sekciji se prikazuje/sklanja klikom na dugme - **JQUERY**
- D.I. dugmadi i slika u Portfolio sekciji
- Klikom na određeno dugme se prikazuju slike odgovarajuće vrste u pomenutoj sekciji - **JQUERY**
- D.I. opcija, radio buttona, checkboxova i dugmadi za reset i submit u formi u Kontakt sekciji
- Obrada pomenute forme
- Slider u testimonials sekciji - **JQUERY PLUGIN SLICK**
- D.I. slajdova u pomenutom slideru
- D.I. submit i reset dugmadi u Newsletter sekciji
- Obrada forme u Newsletter sekciji
- D.I. redova, blokova, navigacionih linkova, servisa, kontakt informacija, korisnih linkova i ikonica društvenih mreža u Footeru
- Ispis trenutne godine u copyright tekst u Footeru

## Template

Za izradu ovog sajta nije korišćen nijedan template.

# ORGANIZACIJA

## Organizaciona šema

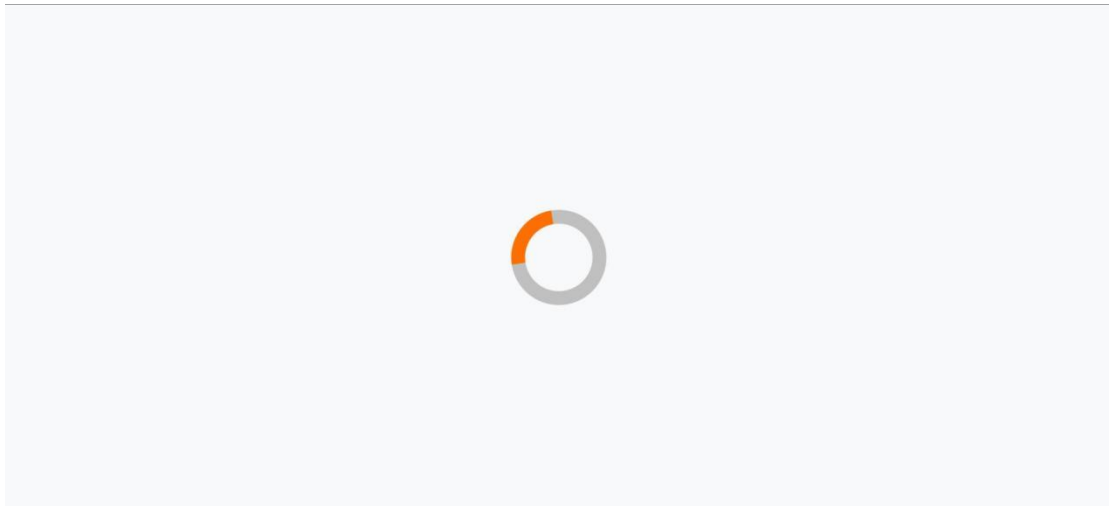

## Mapa sajta

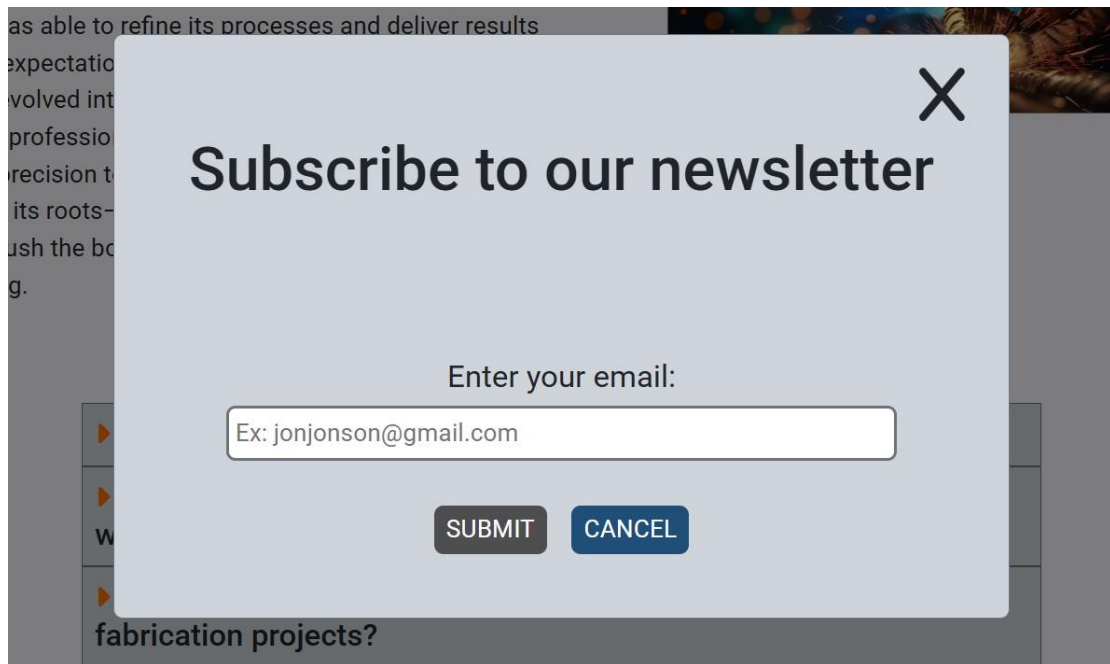

```

```

## Opis funkcionalnosti

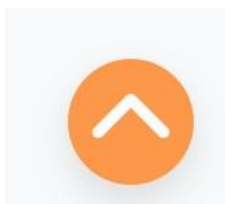

Loader se pojavljuje odmah pri otvaranju stranice i traje vreme dok se ne učita stranica + 3 sekunde, nakon toga nestaje. Skrol je onemogućen dok je vidljiv.

Modal se pojavljuje 5 sekundi nakon nestanka loadera. Može se zatvoriti klikom na X, submitovanjem forme, kada se zatvara 3 sekunde nakon submitovanja, ili klikom na dugme cancel. Obradu forme ću objasniti kasnije

na primeru kontakt forme, obrada svih formi na ovom sajtu se zasniva na istom skupu funkcija. Skrol je takođe onemogućen dok je modal na ekranu. Back to top dugme. Klikom na njega se vraća na vrh stranice. Pojavljuje se na skrol, kada je stranica skrolovana više od 1 visine ekrana (100vh) i nestaje kada nije skrolovano u toj meri. JQuery korišćen.

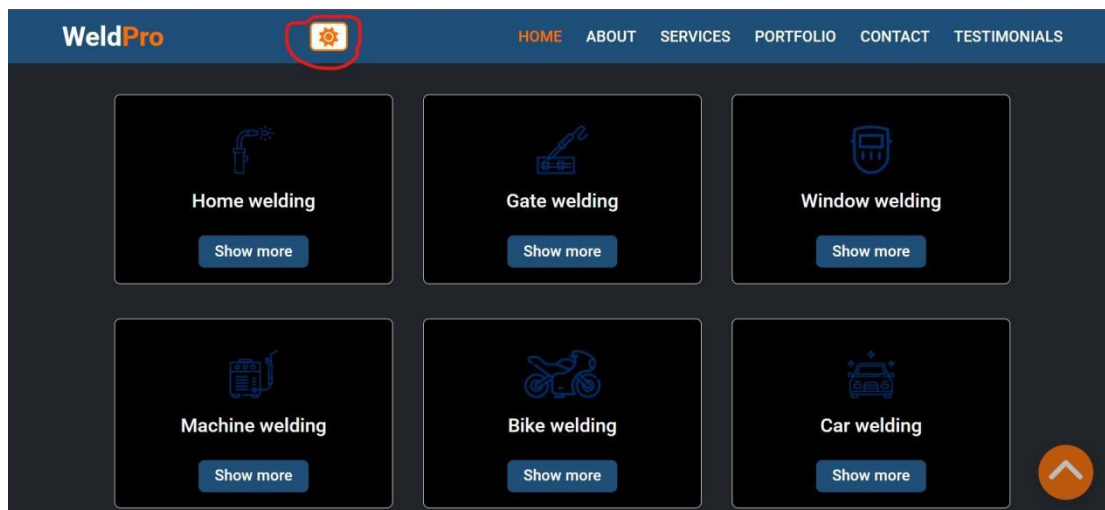

Dinamički ispisani linkovi u navigaciji kao i dugmad (hamburger je vidljiv samo na manjim rezolucijama). Za svaki dinamički ispis se koristi ista funkcija, kojoj se prosleđuje niz sa potrebnim podacima i element gde se ispisuju novostvoreni elementi.

Kada se skroluje više od visina stranice umanjene za visinu headera, header promeni boju, u suprotnom vraća se na prvobitno stanje.

Light/dark mode toggler. Klikom na njega menja izgled stranice, menja se i izgled ikonice u zavisnosti na temu (svetla ili tamna). Ovde je primer tamna teme, na sledećim slikama biće isključivo svetla tema. Promenjena ikonica u tamnoj temi je zaokružena crvenom bojom, u svetloj temi izgleda kao na prethodne 2 slike.

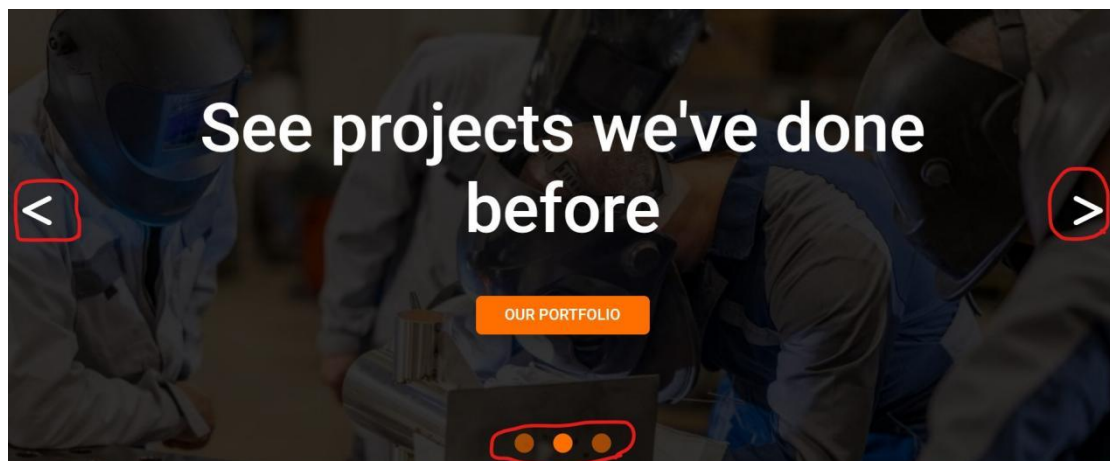

Hamburger, vidljiv na rezolucijama manjim od 992px, klikom na njega se prikazuje/sklanja meni sa linkovima. Menja se i ikonica hamburgera u zavisnosti da li su prikazani ili ne. JQuery korišćen.

Ovako izgleda hamburger kada meni nije prikazan.

Slider. Klikom na dugme ide se slajd napred/nazad, u zavisnosti koja je strelica kliknuta (u ovom slučaju za napred). Dugmići u obliku tački prikazuju koji slajd je aktivan i klikom na njih se prikazuje odgovarajući slajd. Zaokruženi elementi su ispisani dinamički, kao i sami slajdovi. Na svakih 5 sekundi slajder automatski pređe 1 slajd napred. Kada se klikne na neku strelicu/dugme taj tajmer se restartuje.

Dinamički ispisani pasusi i slike u About sekciji, sa fade-in efektom.

Welcome to WeldPro, where precision welding meets craftsmanship and excellence. Our highly skilled team is dedicated to delivering superior results, whether it's enhancing the security of your property with gate welding, improving energy efficiency with window welding, or customizing your motorcycle with bike welding. With a commitment to innovation and personalized service, we ensure that every project is executed with the utmost care and attention to detail. From initial consultation to project completion, you can trust WeldPro to exceed your expectations and deliver exceptional quality and reliability. Join us on the journey of precision welding excellence and experience the difference with WeldPro.

WeldPro began as a small workshop driven by a passion for welding and an unwavering commitment to quality craftsmanship. From its humble beginnings, the company focused on delivering reliable and precise welding solutions, quickly earning a reputation for excellence. Over the years, WeldPro grew steadily, expanding its range of services to meet the needs of homeowners, businesses, and industries alike. By embracing advanced technologies and innovative techniques, the company was able to refine its processes and deliver results that exceeded expectations. What started as a one-person operation has evolved into a trusted name in welding, with a team of skilled professionals dedicated to bringing durability, creativity, and precision to every project. Today, WeldPro remains true to its roots—providing exceptional service while continuing to push the boundaries of what's possible in the world of welding.

Dinamički ispisani pitanja i odgovori blokovi (accordioni) koji imaju fade-in animaciju. Klikom na pitanje se prikazuje/sklanja odgovor u zavisnosti da li je odgovor prikazan, jquery korišćen.

#### ▼ What types of welding services does WeldPro offer?

Troweld provides a comprehensive range of welding services including home welding, gate welding, window welding, machine welding, bike welding, and car welding.

#### ► How does Troweld ensure the quality and reliability of its welding work?

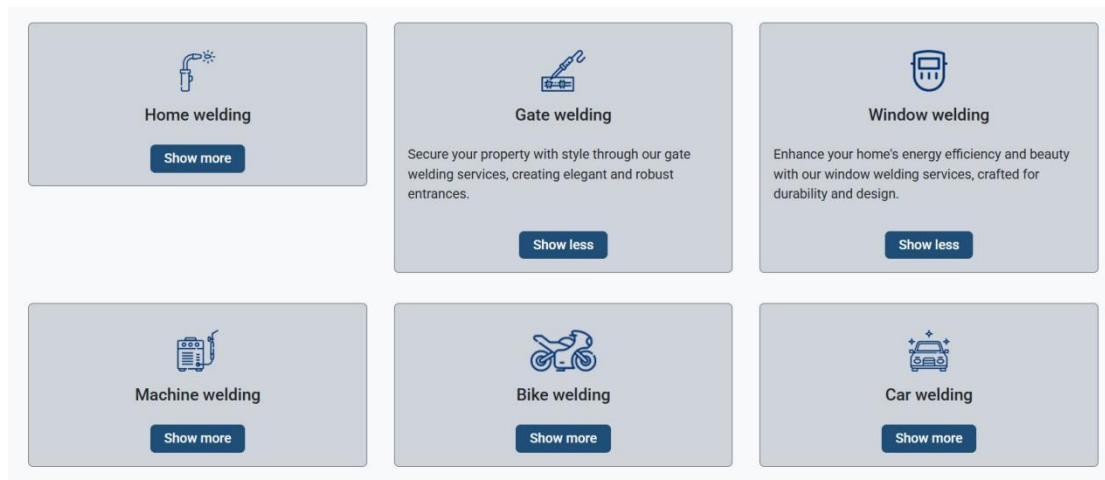

#### ▼ Can Troweld handle both small-scale repairs and large-scale fabrication projects?

Yes, Troweld is equipped to handle projects of all sizes, from minor repairs to major fabrication projects. Our skilled team has the expertise and capabilities to meet the diverse needs of our clients.

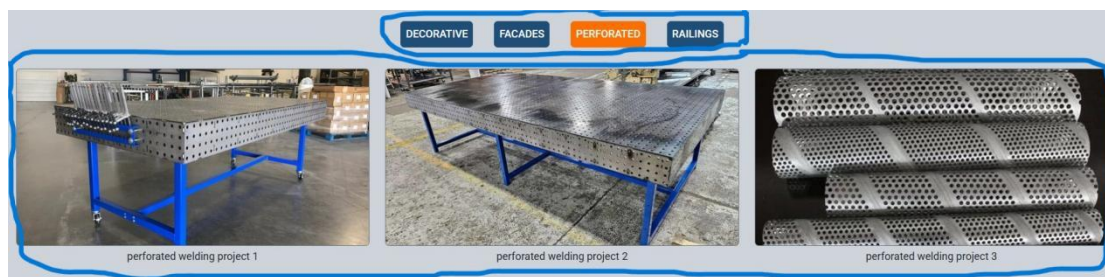

#### ► How can I get started with Troweld for my welding project?

Dinamički ispisani blokovi u Service sekciji. Klikom na plavo dugme se dodatni tekst prikazuje/sklanja, u zavisnosti da li je prikazan menja se i tekst na dugmetu, jquery korišćen i fade-in animacija.

Dinamički ispisana dugmad i slike u Portfolio sekciji, ceo taj deo ima fade-in animacija. Klikom na dugme se prikazuju i odgovarajuće slike, jquery korišćen. Pri učitavanju se prikazuju decorated slike, sada se prikazuju perforated.

Objašnjenje obrade forme. Da bi se omogućilo submit dugme, moraju se sva obavezna polja popuniti na valjan način. Pomenuto dugme se takođe neće omogućiti ako su neobavezna tekstualna polja popunjena na neodgovarajući način (u slučaju forme u Contact sekciji polje za broj telefona).

Tekstualna polja se proveravaju na blur i keyup, ostala na change. Ukoliko su pogrešno popunjena, prikazaće se poruka o grešci. Kod tekstualnih polja i select elementa za pravilan unos će bordura pozeleneti, a za pogrešan pocrveneti. Kod uspešno popunjenih neobaveznih tekstualnih polja bordura će biti uobičajena.

Dole je slika forme u sekciji Contact, koja ima fade-in animaciju. Opcije u selectu, radio dugmad, checkboxovi i dugmad za submit/reset su dinamički ispisani. Na slici dole je primer forme popunjen sa različitom "uspešnošću".

Vizuelno se iste stvari dešavaju i prilikom submита forme i dodatno se ispisuje poruka za uspešan submit.

Slider u Testimonials sekciji napravljen pomoću slick jquery plugina. Sami slajdovi u dinamički ispisani, a sam slider ima fade-in animaciju. Promenom rezolucije se i menja broj prikazanih slajdova. Iste funkcionalnosti kao slider u sekciji Background, sem što slajdovi ne idu napred automatski i drugačija je animacija prilikom promene slajdova.

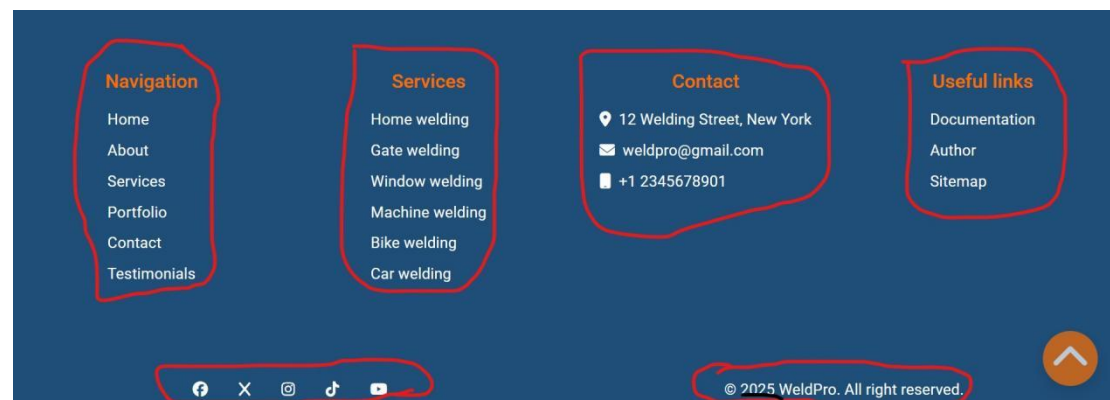

Dinamički ispisana dugmad u formi Newsletter sekcije. Ponavljam da forma funkcioniše po istom principu kao npr. bolje objašnjena forma u sekciji Contact i generalno svaka forma na sajtu. Sekcija (odvojeno naslov i sadržaj) imaju fade-in animaciju. Ponavljam da naslovi u svim sekcijama index.html stranice sem Background imaju tu animaciju.

U footeru je sve dinamički ispisano: redovi, blokovi i sadržaj neuređenih lista u tim blokovima sem u poslednjem bloku sa copyright tekstom. Dinamički ispisani sadržaji u blokovima, navigacioni linkovi, servisi, kontakt informacije, korisni linkovi, ikonice društvenih mreža.

U bloku sa copyright tekstom se prikazuje tekuća godina (podvučeno crnom bojom). Zbog preglednosti slike nisam zaokruživao redove i blokove u njima kao što je slučaj sa neuređenim listama sa sadržajem (crvenom bojom zaokruženo).
